Using Zoom Inside Moodle

Quick Tutorial

Teachers can now create a Zoom videoconference for their students directly inside their Moodle courses. You must have a **Zoom Pro license** to use it. If you don't have a Pro license yet, please contact Rafael Scapin (<u>rscapin@dawsoncollege.qc.ca</u>) and request one.

This is a quick tutorial on how to start using it.

1. Login to Moodle and select a course you are teaching. After this click on **"Turn Editing On**" as shown on the image below:
